● SKIPPER'S MOTIVATION

Since 2016, I have been defending the values of the France Lymphoma Espoir patient association. This association aims to inform families and patients, and to support research against lymphoma. In addition, the Normandy Channel Race has a special flavor for me, since it was the first race in which I participated following my treatment against Lymphoma. It is therefore with great desire and pleasure that I will take the start of this Normandy at the helm of a boat already titled on the circuit ...

Support FLE and its projects, give hope to those affected by this cancer, and have a successful race, these are the leitmotifs of the project!
