- 11th Transat Québec Saint Malo 2016
- 14th Normandy Channel Race 2016

3rd participation in the CIC Normandy Channel Race

● SKIPPER'S MOTIVATION

Ivica: This will be my first race on the Atlantic, after 5 years of racing on a Class 40 boat in the Mediterranean, and will also be my longest race so far. I am excited to race inside the Class 40 for the first time. With the help of my co-skipper Calliste Antoine, I am keen on learning the local specifics of racing in waters of La Manche. My boat has a formidable reputation as one of the most successful boats in the history of the Class and although she might not be the fastest boat out there today, she is very versatile which is important in a race like this. This will be my first race on this boat and we are still in the phase of adaptation. Budget of our project is probably the smallest in the fleet but our fighting spirit is well above our paygrade!

Calliste: Finally back on the water and what a pleasure to attack at home by the CIC Normandy Channel Race. This will be the first race with Ivica we are ready to do battle!
