## ● SKIPPER'S MOTIVATION

*After acquiring the Mach40 104, we went through a series of training sessions to be more relaxed about the CIC Normandy Channel Race. We hope to rank well, while being aware that there are more and more recent boats, but with the certainty that the boat can offer us some nice surprises! Our ambitions, to continue to discover the boat in the race, to give the maximum and improve our ranking with a Top 10. This event is a good training for ocean racing and remains one of the most versatile and interesting races to learn and perform.*
