● SKIPPER'S MOTIVATION

The modifications made to the bow of the Class40 Lamotte Module Création this winter are very satisfactory. We have largely succeeded in making up for the deficit that we had compared to last year and even if the new «scow» type boats keep an advantage on the askew edges, we have a little more on the handling speeds. between 10 and 25 knots! The course of the CIC Normandy Channel Race leaves a lot of opportunities and we are counting on Achilles to play the spoilsport at the forefront to try to get the best possible result. We are more motivated than ever and can't wait to go and line up for this great race.
