## ● SKIPPER'S MOTIVATION

Let's go for a 3<sup>rd</sup> participation! After 2 seasons with Raphaël AUFFRET, this year I am on board Enguerrand GRANOUX who was my pontoon neighbor in 2021. Last year we were competitors on sister ships (the 104 and the 115 are the only two Mach 1s), this year we team up on the same boat! The CIC Normandy Channel Race is the only double-handed race of the season. This event is good training for offshore racing and remains one of the most versatile and interesting races on the circuit to learn and perform. A great training for the next single-handed races with in particular the Route du Rhum next November which will close the season.

We can't wait to get to the start line and hope to take the 104 to the best of its abilities. This year Équipe Voile Parkinson becomes Dopamine Sailing Team, in motion for Parkinson's with always the same motivation to carry out a sporting challenge in connection with the fight of the sick.
