## ● SKIPPER'S MOTIVATION

*The objective always remains the same: to have fun on the water and try to do better than the previous time! Last year, the CIC Normandy Channel Race was our very first race on the boat a few weeks after her launch, and we were pretty successful with it. Let's hope it wasn't just beginner's luck, and everything we've learned about the Class40 Project Rescue Ocean since will allow us to double the bet! That's good, with Fred we are always so players! And we are very happy to see that the field is expanding and that the fight promises to be even more beautiful in this race which always has a crazy scenario in store...*
