● SKIPPER'S MOTIVATION

A meeting at the high school with the high school trophy and an idea in mind that can finally come to fruition. We are now committed to Class40 for the 2023 season with the CIC Normandy Channel Race as a prologue to get to grips with our boat and measure ourselves against the other boats.

Our objectives for this CIC Normandy Channel Race:

- to be able to compete with the other «sharp» boats
- to validate our entry in the Transat Jacques Vabre
- To share some great moments
- To have a smile on our face
