## ● SKIPPER'S MOTIVATION

*For our first season of ocean racing, we are starting off strong with the CIC Normandy Channel Race. We are very excited to be taking part in this race, which will allow us to make a lot of progress on a very technical course. After a few months of training in Lorient, it will be time to compete against other boats on this magnificent course. The aim is for us to gain experience, and to put all the intensity possible into our manoeuvres and our rhythm of life on board. This race promises to be both challenging and formative for our novice crew!*
