4th participation in the CIC Normandy Channel Race

● SKIPPER'S MOTIVATION

We are leaving on a new boat, freshly launched and quite well prepared. The crew is experienced but we have never sailed together and we are discovering the boat. Our objective is to learn from the boat and to progress quickly on this beautiful machine with very high potential. We will give our best to stay and play with the leading group. The main objective is to make the boat more reliable and to increase her power so that she can be at her best before the Transat Jacques Vabre.
