- 6th Dhream Cup 2024
- 8th The Atlantic Cup 2024
- 4th Globe40 2022-2023

2nd participation in the CIC Normandy Channel Race

● SKIPPER'S MOTIVATION

Nicolas: We're really looking forward to the CIC Normandy Channel Race aboard our Class40 MOONPALACE. For me, it will be a first participation, while for Roger it will be his second. The CIC NCR is renowned for its technical challenges and varied conditions, from strong currents to narrow passages. We're looking forward to sailing through these demanding waters and putting our boat and crew to the test. Roger brings his valuable experience and knowledge of the route, making for a strong and determined team. We're looking forward to taking on this challenge together.

This race is also excellent preparation for the round-the-world race we're planning, the Globe 40! A big thank you to all our partners for their support and confidence.

Roger: I cant wait for the CIC Normandy Channel Race, I had to return since last year we broke the boat and we could not finish. I am coming back with a new partner and a faster boat, I look forward to the challenge the race course throw at us and navigate those beautiful landmarks! and free beer off course, thats why I am there.
