● SKIPPER'S MOTIVATION

This is our first double-handed participation in the Class40 154 WeeeCycling, so the CIC Normandy Channel Race is a key event in our 2025 programme.

We're two friends who complement each other:

Nicolas is an accomplished racer, his experience and energy are inexhaustible, and he never gives up. Matthieu is a commercial sailor, passionate about sailing and determined. He knows the race course well and his technical skills are solid.

After preparing the boat ourselves, we were encouraged by the experience of the first crewed regattas, and although they were physically tough, we felt at ease on board. The boat is fantastic and we can't wait to race in the CIC Normandy Channel Race, perfect our skills and battle it out with the pros. The committed course is going to expose us to a number of situations, so it's an ideal springboard and a way of qualifying for the Transat Café l'Or.
