## ● SKIPPER'S MOTIVATION

*The aim is to combine competition, adventure, discovery and sharing in our sport by raising Interaction's profile on the Class40 circuit throughout the 2025 season.*

*The project is part of a solid, loyal and ambitious partnership with our sponsor Interaction, which is celebrating its 10th anniversary this year. Over and above the sporting results, we intend to write a story together that is full of meaning and shared values.*

*Our main objective for our first participation in the CIC Normandy Channel Race is to consolidate our organisation on board, to test ourselves against the professional crews on the circuit and to get the maximum enjoyment out of this week-long event.*
