TRACK RECORD IN BRIEF

- 20th CIC Normandy Channel Race 2024
- 3rd Armen Race 2024
- 40th Transat Jacques Vabre 2023

3rd participation in the CIC Normandy Channel Race

● SKIPPER'S MOTIVATION

Going back to the CIC Normandy Channel Race is coming back to where everything is accelerating. We love this race because it leaves no respite: a technical course, committed, to manage as a duo in an always unpredictable weather. It's a real test for the crew who will discover this boat. And that is exactly what we are looking for in our preparation for the Route du Rhum 2026. OceanConnect is not just a sports project. It is a collective, human and deeply committed adventure for the ocean.

Navigating, performing, but also committing to a sustainable future: this is what drives us. Together with our NGO partner The SeaCleaners Swiss, we are delivering a strong message: high-level sailing can be meaningful.

Every race is a podium, every mile an engagement.

We want to show that we can combine performance, responsibility and impacts on the oceans while being passionate amateurs!

On this CIC NCR, we aim to do better than last year, of course.

But above all, we want to inspire, move the lines... and make you want to embark with us!
