- 9 participations in the Tour Voile / TFV

2<sup>nd</sup> participation in the CIC Normandy Channel Race

## ● SKIPPER'S MOTIVATION

*Our crew is committed on two fronts.*

*Parity in the professional world is an essential value of our sport, ocean racing, and it fully defines our crew.*

*Each of us brings his or her own sporting and technical background, and following our CIC Normandy Channel Race in 2024, which went well on both a sporting and personal level, we decided to continue our collaboration.*

*Secondly, thanks to our sponsors and partners, we are both involved with two associations that are close to our hearts. Sophie with L'Arche en France to promote inclusion and living together with a mental handicap, and Nicolas with Ellye to provide information and support for lymphoma and leukemia patients.*

*Our objectives? To give visibility to our associations and partners, and on the sporting front to defend our place among the best crews for this 2025 edition!*
