- 11th Rolex Fastnet Race 2021
- 10th CIC Normandy Channel Race 2020

5th participation in the CIC Normandy Channel Race

● SKIPPER'S MOTIVATION

We are thrilled to return for our fifth Normandy Channel Race as a father-son team, especially since Hannes missed the past two editions while away at university. We love the unique trials this course presents and how varied and demanding the conditions are in the English Channel. We're eager to face the fierce competition in the Class40 fleet and to push ourselves and our skills further than ever. Hannes, in particular, is excited to transition back to double-handed offshore racing after competing in dinghies for several years in college. We embrace the freedom and independence of the ocean and, as always, look forward to the incredible camaraderie that ocean racing brings. Beyond the water, we can't wait to experience the warm hospitality at the race village in Caen once again. It is fantastic to have such a special race to kick off our 2026 season.
